The 1973 Yearbook

A bowler's average is published for each league in which he has competed in 21 or more games. A bowler who participated in four leagues last season will find his name published four times with the number of games and a LEAGUE CODE letter and his respective league average following his name.

The publication of averages in this form simplifies the handling of all averages for the formation of new leagues and the handling of tournaments and sweepers. To find a bowler's average you need only to follow the alphabetical list of names, check the code letter immediately preceding his name and you are informed of the league he bowled in, the number of games and his average will appear with his name for each league.

President's Message

As your new president I wish to take this opportunity to thank you all for electing me to this position to serve you. I promise to do my best to perform the duties of president as well as those who preceded me.

As there are some changes in ABC rules this year I urge you all to read them very carefully. Be alert to the one concerning young bowlers. Be sure they and their parents understand what parental consent means.

Let's all work to make our city tournament a real success. 1973 was a record year, let's make 1974 bigger yet. This is a topnotch tournament.

Presidents and secretaries, let me remind you to keep all records up to date. Presidents check bank balances every month. Secretaries get your sanction requests in early. Also try and get your league 100% in the MBA benevolent fund.

Feel free to call on me or any of the officers of the Association for any help you may need.

Good luck bowling in the coming season. Thanks again for electing me president for 1974.

— JUMBO WOLLER

League Officers . . . Attention!

In order that you and we may carry out our duties in as efficient a manner as possible, we offer the following suggestions and rules for you to follow during the 1973-1974 bowling season:

- Rule books, year books, record books, standing sheets, average calculators, Benevolent Fund forms and other material is included in the kit supplied league secretaries each season.
- The league should draw up a constitution and by-laws before the start of the season, a copy of which should be given to each captain.
- A prize list for the season should be drawn by the league's officers at the start of the season and copies should be given to each captain.
- The league Secretary should complete his league's ABC sanction application on the first night of bowling and submit this, with proper fees, to the MBA Secretary. All leagues must be sanctioned within 42 days after the opening night, or Secretary is subject to ABC suspension. ABC Rule 102b.
- The President is required to co-sign all checks drawn on the league and he must also make monthly inspections of the bank statement, a requirement of the ABC bonding program.
- A competitive schedule must be used, to insure all teams equal conditions bowling across all scheduled lanes.
- Protests concerning league play or eligibility must be filed within 15 days after occurrence. ABC Rule 32.
- Captains will be responsible for payment of weekly fees. ABC Rule 106.

- **Secretaries or league officers should pay close attention to mail sent them by MBA or ABC. When standing sheets or average forms are requested, they must be immediately forwarded to the MBA Secretary.**

- The official league representative should attend all MBA meetings, when so notified.
- Benevolent membership cards should be distributed to all league members, so that they may avail themselves of membership in this worthwhile benevolent group. Low cost of 50c entire year.
